

Top Benefits of a Travel Back Office System

Helps you manage all your reservations in one place

- > Ability to record all your online and offline bookings
- > Allows you to view, cancel and modify reservations
- > Automates generation of vouchers, e-tickets & invoices

Helps you set up business rules to manage revenue

- > Configuration of advanced business rules and policies
- > Configuration of various types of markups and commissions
- > Management of local taxes and fees applicable on the bookings

Makes it easier to track your business performance

- > Reconciliation with suppliers and agents to track profitability
- > BI reports to track of sales, commission & sub-agent performance
- > Consolidated data for both online and offline bookings

Helps you look after your customers better

- > Setup and manage 'n' number of B2C/B2B clients
- > Classification of B2C customers for specific promotions and rates
- > Management of credit limits and deposits for B2B customers
