

Things to keep in mind when choosing a **Payment Gateway**

Budget

Research all the costs: setup costs + transaction costs + admin costs

Compatibility

Check if your website hosting service is geared up to integrate the Payment Gateway or not

Security

Always choose a provider who is compliant with PCI DSS

International Payments

Does the Payment Gateway let you take payments in foreign currencies?

Recurring Payments

Can it automatically charge customers for repeat transactions?

Card Types Accepted

Does it support local cards in addition to the international ones?
