

5 Ways a Travel ERP Helps Agencies

Unified Customer View

All your customer and agent details along with transaction records are stored in one place

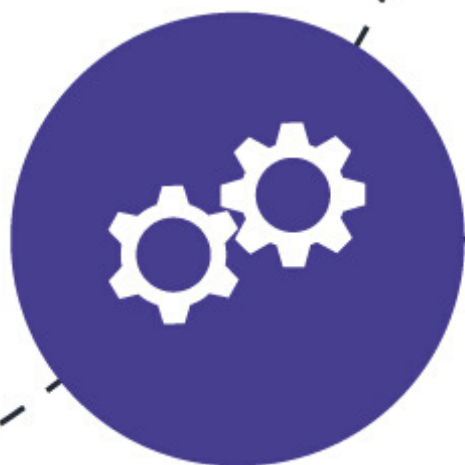

Round-the-clock bookings

Allows you to capture bookings 24/7, rather than just during business hours

Error-free Accounting

Automates your accounting with suppliers & clients thus eliminating manual errors

Revenue Management

Helps you define & apply pricing rules for different products & market segments to maximize yield

Higher Staff Efficiency

Cuts down the time it takes your staff to build complex quotes & itineraries, increasing staff productivity
